

The ICAN Club brings hands-on STEM learning to life — combining robotics, engineering, health science, and creativity inside every classroom and community center.

I.C.A.N. CLUB

EMPOWER YOUR STUDENTS TO CREATE, BUILD,
AND LEAD THROUGH TECHNOLOGY.

What Every ICAN Club Includes

- Smart Learning Tools: Interactive Promethean Board + Chromebooks for collaboration.
- STEM Experience Kits: Robotics, 3D design, motion & energy simulation, and drone exposure.
- Health & Science Learning: Access to health science software for medical exploration.
- ICAN Member Portal: Video lessons, micro-credentials opportunities, and project resources.
- Competitions & Recognition: Automatic entry into statewide STEM challenges.
- Educator Development: Training, workshops, and conference participation.
- The Wacky Engineer Series: Fun, animated lessons blending entertainment with science.

Why Join?

ICAN Clubs are part of the Silicon South initiative — connecting schools to a national innovation network spanning South Carolina, the Caribbean, and beyond.

Students gain real-world skills, mentorship, and a pathway to future careers in STEM.

Join the movement. Inspire the next generation of innovators.

Visit  www.icanican.org to start your ICAN Club today.
